From Huntsville.

Thirty-two Federal soldiers who were left in the hospital at Huntsville when our troops evacuated that place, arrived here on Friday, having left Huntsville on the 18th inst. They state that they were treated with much kindness, and were well fed, abundant supplies having been left for them by our commissary. There were no rebel forces in Huntsville, save a few straggling cavalry, nor did they hear of any army advancing. A citizen of that place sent \$50 to Tuscaloosa to buy a sack of salt but could not get it. At a settlement across the river from Hantsville salt was sold in pound papers at one dollar per pound. Common domestics sell at fifty and seventy-five cents per yard. Bacon is selling at twenty-five cents per pound,

Colonel Moony of the 74th Ohio Volunteers, and at the present commanding the convalencent camps at this place, has been recently before a Board of Examination, which was summoned to inquire into his qualifications and capacity as an officer, they having been called in question by certain parties. After a very rigid inquiry which had lasted several days, conducted by a number of officers in the regular service, of eminent capacity, the verdict of the Examining Board was unanimously in Colonel Moony's favor. Since he took charge of the convalescents, Colonel Moony has organized a fine Regiment out of their number, and they have been removed to another camp. The Colonel's own Regiment, from which he has been so long detached by command of his superiors, are anxious for his return to their head.

Our Baltimore Exchanges says that the secech ladies wear two white and one red rose in their bonnets as emblems of the Rebellion. We think the emblems are misinterpreted and that they are symbolic of peace instead of war. When the houses of York and Lancaster in England made peace, after a long and bloody civil war which sent "a thousand souls to death and deadly night" the Red and White Rose which were the em blems of the respective houses were said to have married, and we take it that the Baltimore ladies, by uniting the two roses, only wish to express their ardent desire for peace and a marriage between the South and the North. We say, Amen! to the prayer, and like Sir Hugh Evansare ready to "dance and eat plants at the wedding."

The Southern Rebellion is perhaps the first rebellion ever waged which had a wrong to remedy, nor a principle to establish. There was no wrong to remedy, for all southern politicians of any reputation'admit, and the census of the country establishes the wonderful prosperity of the South as well as the North, and this prosperity in the South was greatest among the slaveholders. Nor is theire a principle to be established or a national object to be attained by the rebellion, for the triumph of secession is but another term for the triumph of national disintegration, the success of national disso-

An Ohio stumper, while making a speech, paused a moment in the midst of | brave sons who fight under our glorion it, and exclaimed, "Now, gentlemen, what do you think?" Instantly a man rose in the assembly, and with one eye partially closed, modestly, with strong Scotch brogue, replied: "I think I do indeed, sir,-I think if you and I were to stump the country together, we could tell more lies than any other two men in the country, sir; and I would not say a word myself during the whole time, sir."

Deeply were we affected on reading the other day of a young lady, who, on being told that her lover was killed, exclaimed, "Oh! that splendid gold watch of his-give me that-give me something to remember him by!" Touching simplicity.

MANUFATURES OF THE UNITED STATES. -The census of 1860 represents that the annual value of our manufactures reaches the enormous sum of \$1,900,000,-000. In 1850 they were \$1,013,000,000. The profits on the amount are computed at \$4 43 per cent. This amount of wealth was created by 1,385,000 persons, assisted by improved machinery, which gives their skill the greatest possible amount of productive power.

According to the latest official statements the territory of Russia comprises 370,042 German square miles. This does not include the possessions of the Russo-American Company and the territories of the Caspian and Arab lakes. Of these, European Russia, with the districts of Perm and Orenburg, comprises 90,134; the Cancasus, as far as it belongs to Ruse sia, 8,033; Siberia, with the islands, the Amoor country and Sachalin, 262,745, the kingdom of Poland, 2,257, and Finland, 6,870 square miles.

Indians in Minnesota.

The whole number af Indians in the State-men, women and children-is 14,000, of which about 5,000 are Chippe was, 2,500 are Winnehagoes, and 7,200 are Sioux. The latter only are concerned in the recent rising. The whole number of warriors—that is, of adult, ablebodied males-which the Sioux Indians of Western Minnesota can raise, is certatuly not more than eight hundred. Supposing them to be reinforced by the Mis-Bouri Sioux, Yanktonnais and Cutheads, the whole number of warriors which they can raise this side of the Missouri is not over 800 more. So that there cannot be more than 1,600 actually in arms. If the Sioux, Chippewa and Winnebago nations should unite in an attack upon our settlements they could not, together, raise a force of more than 3,000. But any concert between these tribes is improbable and if such a concert were attempted. they could not, in any event, put into the combination a force of more than 3,000

warriors. From this it will be seen that the rea danger from the Indians does not arise from their numbers, but from their sub tle and skulking mode of warfare. But we have thousands of men in the State, old hunters and trappers, who are more than a match for them, in all the arts of Indian warfare. Our citizens may res assured that the irregular forces now i the field are ample for the present emer gency, while the preparations which ar being made for a permanent organizatio of our frontier defences are more than auffleient to provide for all the contingencies of the future. We are especially happy to announce in this connection that General Halleck, in response to Gov ernor Ramsey's request, has ordered the 3d Minnesota regiment to report her

I. In pursuance of the instructions of Major-General Buell, all enlisted men found in this city, or beyond their camp lines, without especial authority from their regimental or detached commander, or other higher officer, countersigned at these headquarters, will be arrested and sent to the city prison.

All officers found in the city without such authority will be arrested and brought to these headquarters for such action in their cases as the Commanding General may direct.

No passes authorizing either officers or soldiers to leave their encampments will be hereafter issued without specifyng the cause, which must be one of pubie business, and limiting the time; and it is enjoined on commanding officers to be rigid in restricting these leaves to the smallest possible number, and to see that the limit of time is observed.

General and Staff Officers, known to be such, are exempt from the restrictions of this order, excepting so far as it requires them to make their presence-and in regard to Staff Officers, their business -known daily at these Headquarters. Officers and soldiers in this city belonging to absent regiments, are required to report to the commanding officer of the convalescent camp; to which camp, and to all persons belonging to it, these orders are to be considered as applying. Camp guards will be of sufficient strength to prevent the soldiers from leaving the

camps to which they belong. H. Discharged men and such as have been mustered out of service, awaiting selves in person to the Provest Marshal, who will make a list thereof, with particulars concerning them and stating where they are to be found. He will provide quarters for them and subsistence for as long as they are unavoidably detained, and see that the regulations regarding them to be established at these Head-Quarters are carried into effect.

III. No man whatever wearing the Inited States uniform, or any part thereof, although discharged from service, will be permitted to wander about, but will be under regulation, quartered and subsisted as above provided.

IV. A patrol of one Company of Infantry and one of Cavalry will be detailed to aid in effecting the objects of this order. Their Officers will receive their instructions from these Head-Quarters. It is also a part of the regular duty of the Provost Guard.
